

March Newsletter 2024

Welcome to our March Newsletter, considering March encompasses the transition from winter to spring in many parts of the world, the theme of renewal, growth, and celebration is particularly resonant this month. And, at NHS Dentist, we are not falling short of renewal, growth, or celebration.

We would like to share some very exciting news with you all.

25th Anniversary Celebration

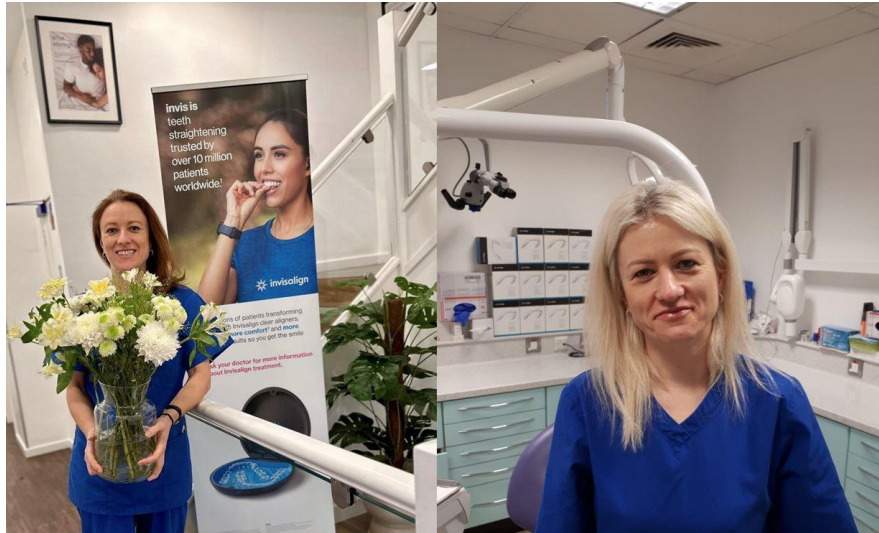

NHS Dentist was set up in 1999 by Dr Henrik Overgaard-Nielsen and his wife Ms Sharon Bierer. It started with one dental surgery, Dr Henrik and his nurse, and has grown to 14 dental surgeries with 15 dentists and a large auxiliary team. NHS Dentist has made a huge impact in the community. The team has seen over 150,000 registered patients in the past quarter of a century. On 2nd February, we celebrated our 25th anniversary with our patients and team. The celebration lasted for one week with balloons and gifts.

To everyone who has supported us throughout the years, we would like to say thank you.

Passing Dental Nurses' Exams

Congratulations to our wonderful nurses Edyta and Monika on passing their dental nurses' exam this month. We are very proud of you.

Case Of The Month

We'd like to share a case study with you. This lovely patient had problems with an upper loose denture that was giving her issues. She couldn't talk properly or smile, afraid that the denture would show or even worse drop out while speaking. She explored the option of removing all remaining and failing teeth and replacing them with a fixed option, All-on-4 Dental Implant Bridge. The results were astounding!

If you'd like to know more about dental implants or All-on-4 'Teeth in a day' dental treatment, please ask your dentist or one of our front of house team members.

Check out our new patient journey display board next time to come in, we will be sharing cases throughout the month.

Warm regards,

NHS Dentist

Promotional Offer:

INVISALIGN OPEN DAY

The flyer features the NHS Dentist logo on the left, a starburst graphic stating 'SAVE £1250', and the Invisalign logo with the tagline 'The Clear Alternative to Braces'.
