

## *Welcome to your April Newsletter*

Spring is finally here and with it we are thrilled to present our latest dental newsletter!

---

As always, we endeavour to bring you the latest advancements in dental care, but more specifically at NHS Dentist. In this edition we will be shining the spotlight on the new services provided at our practice. But that's not all, we will also share news about our team and their accomplishments, their dedication to serving you and take pride in their work.

So sit back, relax and enjoy this month's newsletter.

# New Services!

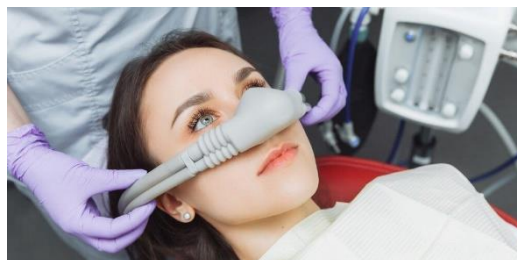

## **NEW! Botox Injection Treatment**

We are proud to announce Dr Noushin Karimi's latest post graduate training course in Botox injection treatment, Dr Karimi recognised the long-lasting effects of teeth grinding, its harmful effect on her patients, both dentally and on a personal level. She embarked on an extensive post graduate training course in Botox to understand its benefits on jaw muscles. Botox injections can relax the same muscles that make us grind and clench our teeth in a para-functional way. Dr Karimi has transformed her patients' oral health and provided them with a life changing solution and more importantly an alternative treatment to wearing a mouth guard at night.

---

## **NEW! Inhalation Sedation**

We are also delighted to share with you the introduction of inhalation-sedation at NHS Dentist. Inhalation sedation is a light form of sedation, it is a mixture of nitrous oxide and oxygen breathed through a nosepiece. This helps a patient to feel relaxed and undergo, otherwise perceived uncomfortable, treatment. Inhalation sedation is normally provided to anxious patients, sadly, the NHS will not provide or fund this treatment.

This new and exciting service will be carried out by Dr Aneeta Thankachan and senior dental nurse Regina.

---

## Our Dedication To You

One of the things that makes NHS Dentist such a special dental practice is our dedication and perseverance in providing NHS dental treatment when many other practices have long given up on a broken NHS Dental System.

Within our endeavours, we remain focused to offer our patients services outside the remit of NHS. Despite limited funding from the NHS, we continue to invest in the recruitment, development and retention of excellent staff. We are proud of NHS Dentist's reputation as a friendly, kind and efficient dental practice offering a huge range of services to our patients. Hand in Hand with this, the practice remains committed to improving facilities on site, the refurbishment of the main patient toilet is nearly complete. We have also recently invested over £50K in two new

intra-oral Digital Scanners that will revolutionise the way our dentists work to facilitate necessary treatment for our patients.

## Breaking Records

### 25 Years

Dr Noushin Karimi is the longest standing dentist at NHS Dentist, she has served 25 years at the practice. Her dedication to her patients and her colleagues has been unfaltering. Dr Karimi's vast experience has benefited, not only her own patients but also her younger colleagues.

19 Years

Another milestone anniversary was celebrated by Baldev, he has been with us for 19 years. Baldev is an asset to our practice, he has always been supportive of his colleagues and revered by them.

13 Years

We are also thrilled to share that Regina, our senior dental nurse is celebrating 13 years with us at NHS Dentist. Regina has been a rock to rely on and has helped multiple trainee dental nurses complete their dental nurses' training course throughout the years. Regina has also acted as head dental nurse for many years until she embarked on her training to become a dental hygienist. She worked hard and completed her training and is currently awaiting her registration with the GDC as a Dental Hygienist.

## 8 Years

Andreea, who is our Treatment Coordinator, recently celebrated her 8th work anniversary at NHS Dentist. Andreea, started with us as a trainee dental nurse and has worked herself up to hold one of the most important roles at the practice. Andreea, has an amazing work ethic, she is always happy to help her colleagues and patients no matter what. She always has a smile on her face and spreads positivity wherever she goes.

These are only four of many members of our team that have dedicated many years of service at NHS Dentist. We are proud and lucky to have such wonderful people, their commitment and loyalty stands out. We are grateful to their contributions and hard work.

---

## *Hear from our **happy** patients*

We are always over the moon to read positive Google reviews from our valued patients.

This positive feedback means a lot to the entire team, and we will continue to strive to provide exceptional dental care to the local community. Thank you very much for your sustained support, your contributions and loyalty play an enormous role in the success of NHS Dentist. Thank you for trusting us with your dental health journey, we look forward to continuing to serve you with excellence.

Excellent service, as always. Been going here for over ten years, and have had excellent treatment for all sorts of things from wisdom tooth removal, extraction, crowns, filings, regular check ups and more

The surgery is large, with friendly and professional - and very well qualified - people, from the reception to the dentists. Previously, when we moved into the area I tried a private dentist in Earls Court who was terrible - my partner and I both decided to visit NHS Dentist and would not swap to anywhere else. My partner had an implant and other treatment and was very satisfied.

I've had a couple of emergency situations and was always seen promptly, and I can't think of a bad thing to say about this dentist and thoroughly recommend it

Tip: It is a busy practise and there is demand for its services, so always worth turning up a little early in my experience

Fantastic service and practice. Don't bother going anywhere else as this practice is the best in London. Have been a patient here for over 9 years and have had excellent professional care throughout. Reception staff, nurses and dentists all amazing and extremely friendly and nothing is too much trouble. Dr Karen Pinto saw me as an emergency and she was absolutely brilliant and explained what treatment needed to be done. Well done to everyone and here's to the next 25 years!

The chaps at reception were friendly and welcoming.  
The dental nurses are always on the ball.  
And my dentist Nancy Yousef was, as ever, very professional and comforting.  
Top bird (apologies; I grew up in the neanderthal 1970's).

NEW

I used to be very worried and scared to go to the dentist, but Jenish makes so much better experience, and very careful with every steps.

I am very happy with his service and his professionalism

I book my hygiene every 6 months with him.

Thank you very much Jenish

see you soon
